### COMMENTS – CLIENT

When I was looking for a project manager a few months ago, there were a considerable number of project managers contacted but out of them Mr. Sadeesha Jayaweera was selected because he seemed to be more confident and talented. One of my Colleagues recommended him to me.

I am truly satisfied because I had selected one of the most capable person to manage this project.

He has been able to handle the project very efficiently within the given timeframe. The tasks done by him regarding the scheduling, delegation and planning were outstanding. Not only that, the suggestions and comments made by stakeholders have been taken into serious consideration by Mr. Sadeesha Jayaweera. It is appreciated very much.

Finally, I must say that I am very lucky to work with a dedicated project team like this and I am looking forward to work with them in the future too.

Ms. Ellen Watson

Event Coordinator
